AIRBUS

AIRBUS

Certified Partner Programme

The programme is dedicated to everyone in the aerospace ecosystem who wants to make the best possible use of data.

With our Skywise Certified Partners, we provide collaborative power that unleashes potential and increases utility of data to create impactful, high quality solutions with a shorter time to market. The program is dedicated to everyone in the aerospace ecosystem who wants to make the best possible use of data.

This service operated by Skywise Certified Partners, leading digital companies with certified staff members, helps you to fulfil your daily needs for new workflows around data integration, customisation of existing applications, analytics and outcome integration into decision making processes at operational level.

Should you have any questions or identified projects, please feel free to directly connect with the Skywise Certified Partner of your choice.

“ As a Skywise Certified Partner, we at Accenture are delighted to accompany Airlines in their digital transformation journey. With leading capabilities in digital, cloud & security, combined with an unmatched experience and a powerful Skywise platform, we are committed and well- equipped to serve the airline’s digital needs and deliver crucial operational value to overcome the modern challenges of the Travel industry. ”

Patrice BARBIER, Client Account Executive

721K	Employees worldwide
9 K	Clients served across more than 120 countries

Commercial strategy

- Network and fleet planning
- Revenue management optimisation
- Distribution strategy
- Ancillary strategy
- Customer experience

Cost Reduction

- Step-change unit cost reduction
- Achieve best-in-class & elastic cost position
- Renegotiate customer & vendor contracts

Beyond Aircraft operations

We can also assist our customers in deploying corporate-wide strategies that go beyond aircraft operations, such as M&A strategy, labour transformation, capital & debt raising/liquidity and more

Connected Business

- MRO strategy
- Cargo
- Ground handling

As Global Digital Services and Intelligent Industry leader, we are ready to optimize your operations and services by leveraging innovative technologies across your entire value chain.

As Airbus Skywise historical Partner, we ensure to make the best of your data, mastering Skywise. We rely of a wide range of local and global talents ready and skilled to deliver Data driven solutions, with or without Data Science & AI.

We have **demonstrated our capacity to deliver ambitious end-to-end digital transformations** across several sectors including Aerospace & Transport to create, deliver and scale their new digital offers.

Trusted as a partner to go the extra mile we help them foster the power of data. Ready to start a journey with you, focusing on Value from Data, for **the best of your operations**.

5+	Years Skywise Partnership
300+	Skywise talents
30+	Active Skywise projects
100+	Delivered Skywise use cases
259M€	Revenue for Airlines and Airport bus

Our value proposition as a Certified Partner

- **Innovate:** Conduct ideation workshops, bring new services design and accelerate innovation across your business and data teams
- **Qualify:** Drive the innovation funnel through business value glasses according to your enterprise strategy and access feasibility
- **Connect & Co-build:** Connect your data to the platform to start designing and delivering custom solutions
- **Train & Adopt:** Upskill your teams and secure solution adoption

The era of datafication, connectivity, and digital solutions enables various industries to serve their customers in new ways. While the aviation industry often works with cutting-edge technologies, the pandemic has only reinstated the dire need to adopt digital transformation initiatives and strategic digital approaches in reshaping the aviation sector.

Our substantial experience working with Aerospace and Aviation customers across the globe helps us realize the value of innovative digital technologies at every level, from passengers to operations.

As a result, our engineering solutions and services are tailor-made to meet aviation & airline companies in terms of cost, quality, and expertise, while helping the client in achieving superior customer experience, optimized operations, and enhanced fleet/component utilization.

WHAT WE OFFER/SERVICE OFFERINGS

Flight Operations & Planning

- Aircraft Weight Dashboard
- Wheel Replacement Analysis
- Data Communication with 5G
- Data analysis leveraging AiKno® Framework
- Automated Flight Information Reporting System
- Route Optimizer

Aircraft Health Monitoring & Analytics

- Health Monitoring of Cabin
- MRO Spares Availability
- Digital MRO

Passenger Experience

- Digital Streaming
- IFEC: In-seat Solution
- Content Management Automation System
- Global Cart

Digital App Factory

- Reservation Solutions for Cargo & Agents
- Cabin Crew Application
- Digital Thread: Enriching
- Passenger Journey

Sopra Steria is your Skywise partner to leverage all the Airlines value chain.

We assess, anticipate, plan the Airlines stakes and deliver Skywise solution to support your operations. Beyond the operational excellence, Skywise and Sopra Steria can support the management of your environmental performance.

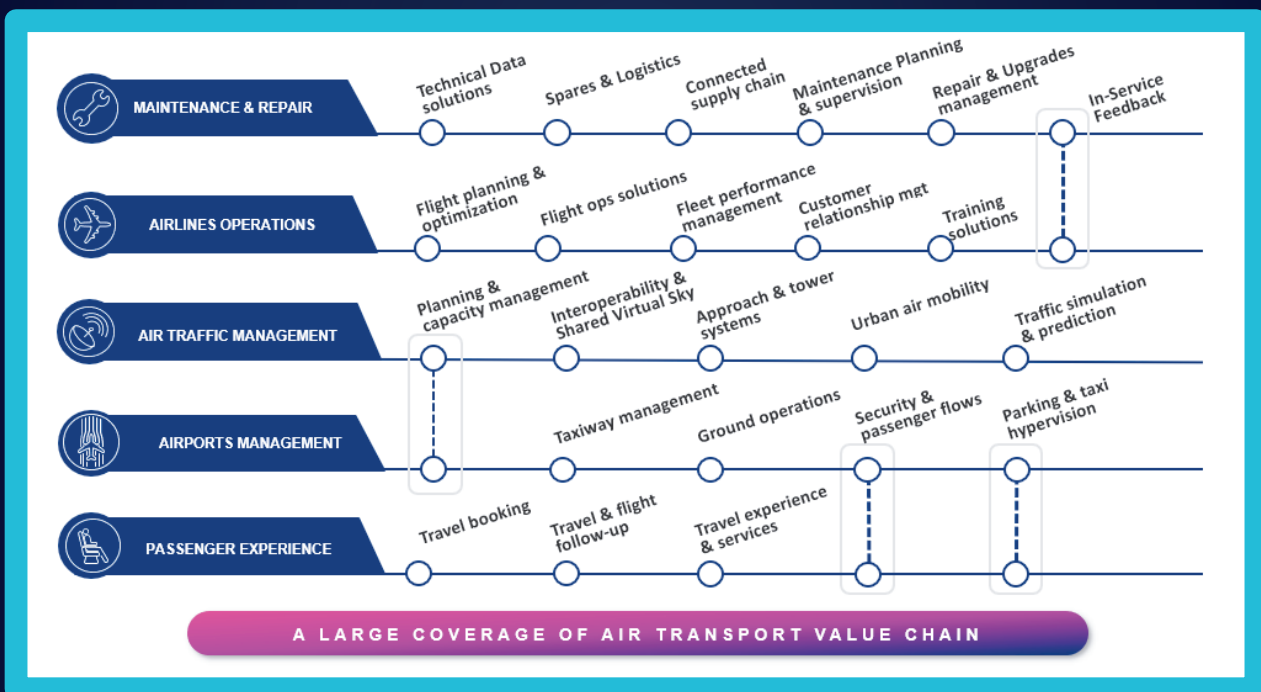

Our offer covers the entire Air transport value chain by providing business consulting, end-to-end airline solutions, innovation and off the shelf solutions. We accelerate the decarbonation by offering data insights on CO2 emissions to reshape the future of Airlines together.
