ACT Trainer

Bringing the aircraft
into the classroom

AIRBUS

Your Benefits

ACT Airbus Competence Training

ACT Trainer is a 3D virtual device for theoretical and practical training, offering the ability to explore and interact with the entire aircraft

-  Scenario-based and guided training
-  Familiarization with real Aircraft environment
-  "Learning by doing" concept and focus on the "Need-to-know"

- Active learning for better knowledge retention
- Applicable to certified and non-certified courses
- Reduced practical training on the Aircraft **by 50%**
- Limited risk for injuries and damages to the Aircraft
- Courses approved by major Airworthiness Authorities
- Access to different Aircraft types training in the same classroom
